Work

Men are sometimes heard to grumble because they have to work hard to make a living for themselves and families, but the man who makes the most bitter complaint is the one who is out of work, is anxious to work, and cannot obtain employment. Not "hard work," but "out of work" is the real tragedy of life.

The greatest problem confronting the Government and people of Great Britain today is lack of employment, resulting in a million or more men living in idleness. The most serious side of this unfortunate situation, however, is not the loss of productive wealth which this army of potential workers might be creating; it is not the financial drain imposed on the Government and charitable organizations in providing a bare living for these men and their families; it is not even the amount of hardship and suffering which may be entailed. The really serious thing is the effect on the characters and morale of these men forced to live in idleness, and on young children who lack sufficient nourishment to develop strong bodies.

Because many cannot obtain work, and the Government was forced to provide a system of doles in order that these people might live, there has been a decided lowering in the morale of many, with the result that as time has passed thousands have become discouraged, indifferent and shiftless, and have reached that frame of mind where they no longer want work and are quite content to drift along indefinitely subsisting on Government doles and charity.

Prevailing conditions give added testimony to the truth of the old saying that Satan finds mischief for idle hands to do. Communism and Bolshevistic doctrines are openly preached in England and the gospel of a workless world taught. Many of those who are at work are ready to strike on the slightest provocation, notwithstanding the fact of thousands already out of employment. Others are slackers on their jobs and deliberately refrain from performing a fair day's work. The result is that Great Britain is having difficulty in regaining its old pre-war eminence in world manufacturing and commerce, and as a result, industry cannot provide the volume of employment that would otherwise be the case.

European travellers comment on the entirely different picture presented by France and Germany. In both of these countries the gospel of hard work is both taught and practiced. Germany is rapidly regaining its old trade and even increasing it over the pre-war figures. A writer, Comyns Beaumont by name, states that Germany's exports to British India, the Dutch East Indies, Java and China were thirty per cent greater in 1924 than in the pre-war year of 1913; that Germany today manufactures more pig-iron than Great Britain; that in Brazil and Argentina, imports from Germany far exceed those from Great Britain; that in China, East Africa, South Africa and India, Germany's trade is advancing by leaps and bounds; while in the case of India especially, British trade is falling off.

Hard work is not a curse, but a blessing. The man who works hard and throws his whole energy into his task is, as a rule, a contented and happy man. It is the idler who is the malcontent, the fault finder, the mischief maker. The theory of a workless world being a paradise is the most insane of all fallacies, and that section of the British people who appear to have accepted a state of unemployment as a permanent, inevitable and not wholly undesirable condition, had better awaken to this fact before it is too late.

Nor is it in Britain alone that people require to bestir themselves and come to a full realization of the great truth that in work, hard work, is to be found their own salvation and the salvation of their country. There are men who say, and seem to think, that their country owes them a living. This is not so. No country owes any man a living unless he is prepared to work for it. Nothing of permanent value can be gained in this world except through work, and the man who refuses to work has nobody but himself to thank if he gets little or nothing out of life.

Agriculturists and Farmers

Hon. John Martin, minister of agriculture for Ontario, explained to members of the Canadian Club at Toronto the difference between agriculturists and farmers. A farmer, he says, makes money in the country and spends it in the city, while an agriculturist makes his money in the city and spends it in the country.

Canned Salmon Industry

Canned salmon exports from Vancouver for the year 1924 were 1,255,542 cases, sold in the following countries: United Kingdom, France, Australasia, Germany, West Indies, Sweden, Belgium, British India, Central and South America, Ceylon, China, Denmark, Egypt, Holland, Italy and Malta.

B.O. Lumber Industry

For the fiscal year ending September 30, 1924, the Pacific Lumber Inspection shows that British Columbia shipped a total of 639,156,324 feet of lumber from all ports. Shipments were made to the following principal markets: Japan, United Kingdom and the continent; Australia, China, New Zealand, India, South America, etc.

Huge Cable Project

The Pacific cable board in London is now inviting tenders for the laying of a second submarine cable from Vancouver to Fiji Islands. This is a project that, counting the cost of the cable itself, which has been in process of manufacture for more than a year now, will run into millions.

Children Cry for

**Fletcher's
CASTORIA**

MOTHERS:—

Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

West Is Coming Back

SIR JOHN AIRD
President of the Canadian Bank of Commerce, who says that the farmers of Western Canada are much further ahead financially than this time last year, following the good 1921 crop and better wheat prices.

Some Recent Inventions

A transparent umbrella that allows the person carrying it to see where he is going is a novel invention recently patented by a woman in London. Another new stunt is a pair of scissors with interchangeable blades.

GOOD NEWS FOR RHEUMATIC PEOPLE

Now Known That This Trouble Must Be Treated Through the Blood

The most of a rheumatic sufferer can hope for in rubbing something on the tender, aching joint is a little relief. No lotion or liniment ever did or ever can do more than this. The rheumatic poison is rooted in the blood. To get rid of it you must treat it through the blood. "Any doctor will tell you that this is true." If you want something that will go right to the root of the trouble in the blood, take Dr. Williams' Pink Pills. The whole mission of this medicine is to purify and enrich the blood, and when they do this all blood troubles, including rheumatism, disappear. Among those who have proved the value of Dr. Williams' Pink Pills is Mrs. Annie Wright, Woolchester, Alta., who says: "I was a sufferer from rheumatism for six years, and during most of that time my life was one of misery. I tried several doctors, and many remedies recommended, but never got more than temporary relief. The trouble seemed to affect my whole system and was badly run down and suffered from headaches as well. Finally, I was advised to try Dr. Williams' Pink Pills, and through these I found complete relief and today I feel like a new person. I can therefore strongly recommend Dr. Williams' Pink Pills to anyone suffering as I did from this trouble."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Prefers Federal Subsidy

Manitoba's Position on Resources Different to Alberta Says Premier—Bracken

Under present conditions and circumstances Manitoba would, rather have its federal subsidy than its natural resources.

This was, in effect, the opinion of Premier John Bracken, commenting on Premier Greenfield's announcement that Alberta's fight for its resources had been settled amicably.

The premier stated that Manitoba's position was in many respects different from that of Alberta. So much of Manitoba's resources had been alienated or disposed of by the Federal Government that in this province for the present at least, it was better to leave the matter as it stands, accepting the federal subsidy in lieu of the remaining resources.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

Will Ask Treaty Approval

Premier King intends to bring down a motion in the house asking for approval of the waterways treaties between Canada and the United States signed in Washington.

For sore throat Use Mindra's Liniment

W. N. U. 1927

Canada and the Empire

Destiny of Canada is in Association With-British Empire.

In Canada there is a deep-seated belief that this country can work out her destiny to better advantage in political association with the Mother Country than in any other way. Political conceptions have changed since the 13 colonies quarrelled with George III. There is no occasion, no possibility of such quarrels now. Canada has everything these colonies revolted to secure, and she has a great deal more. If we cannot make Canada a great and prosperous nation within the commonwealth of British peoples the fault will be our own.—Toronto Star.

Earache, Toothache Now Quickly Subdued

These are the sort of ills that call for a powerful and certain remedy. When your tooth is jumping, when you want ease and comfort in a hurry, you always get that quick relief from trusty old "Nerviline." Many who have suffered from toothache, neuralgia, earache, etc., etc. Get a 35c bottle from your dealer to-day.

Man Has Wonderful Brain

Is Able to Memorize Figures and Words at Sight

Naum Lipowsky is giving evidence of his wonderful memorizing powers before Dr. Spearman, professor of mind and logic, at the University of London.

Psychologists have been baffled by this young man's amazing brain. Imagine a list of figures long enough to encircle an ordinary room. Lipowsky, after once reading them, can repeat them backwards or forwards.

Should anyone ask him, for example, the cube of 45, he will answer without hesitation 506,257. We tested it and found his answer correct. It is just as easy for him to find the root of a number. As an illustration, if anyone mentioned 456,533, he would reply that it represents three "77s" multiplied.

But the most remarkable fact is his knowledge of dates. He has every day of the Christian era carefully docketed in his mind. When asked on what day of the week May 1 fell in 1901, he replied accurately, "Wednesday." "Next day it will be on a Friday," he added.

A Power of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

A new Italian locomotive is operated by compressed air so that it can run over flooded tracks.

The man who says he runs things at his house may mean the washing machine and vacuum cleaner.

Speedier Than Swiftest Bird

French Army Officer Flies 280 Miles An Hour

A French army officer, Adjutant Bonnet, has just streaked through the air for a distance of three kilometers at a speed of 280 miles an hour, establishing a new world's record. That speed is nearly five miles a minute. It is a rate of human travel which dwarfs any ever reached by any vehicle on land. The fastest recorded speed of the swiftest bird—about 136 miles an hour—was less than half as fast. If Bonnet's speed could be sustained, the ocean could be crossed in ten hours. One could breakfast in New York at 6 in the morning and dine in London at 8 in the evening. One could circle the globe in three days and seventeen hours.

In Every Corner Of All Canada

Men and Women Put Their Faith In Dodd's Kidney Pills

They have proved their value by the relief they have given for over thirty-five years and have friends everywhere.

Monteville, Que. (Special).—Every corner of Canada holds at least one person who swears by Dodd's Kidney Pills. They have been relieving kidney troubles all over this vast Dominion for more than thirty-five years. They are specialists. They relieve only kidney trouble and those diseases that spring from disordered kidneys. That's why they grow more popular every day. Listen to what Dame T. Cavignon says about them.

"It gives me pleasure to send you this certificate. I was so weak I often had to stay in bed. I was nervous and only got a little sleep at night. My doctor had told me this weakness was bringing on consumption. A few boxes of your marvellous Dodd's Kidney Pills sufficed for me to completely recover my health."

Dodd's Kidney Pills purify the blood and pure blood carried to all parts of the body means new health and increased energy all over the body.

The ocean water at Deauville, famous French watering place, was warmer on Christmas Day than it was in mid-August.

LOCAL AND GENERAL

Don't forget the Picture Show, Thursday, March 26th.

Kitchen Shower.

A very pretty Miscellaneous Shower took place at the home of Mr. and Mrs. W. Walroth, March 18th, under the auspices of the Inverlea Ladies Aid. Many useful articles were bestowed upon the happy couple about 4.30 p.m. Miss Jean Murdoch and Miss Ruth Cox assisted by Mrs. C. Murdoch acted as 'messengers'. As the gifts were handed to the groom by the messengers, the bride read the verses. Lunch was served about 5 p.m., after which the guests departed wishing the young couple much happiness in their new home.

Everybody thinking they had done a day's work, retired early; to be awaked at 11 p.m. by the most hideous noise on the outside of the house, which they realized was a "Shiverer". This party left after F.J. took sleeping fever in the wee sma' hours.

Card of Thanks.

We wish to thank the ladies of the Inverlea Aid for the numerous articles received in the Miscellaneous Shower, held at the home of Mr. and Mrs. W.J. Walroth.
Mr. and Mrs. F.J. Claybolt.

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner
Government of Alberta,
Edmonton.

Value of Farm Lands

According to a bulletin issued by the Dominion Bureau of Statistics, the average value of occupied farm lands in Alberta is placed at \$25 an acre, compared with \$24 for 1923. The highest average is British Columbia with \$36 an acre. Alberta has the lowest average price per acre of occupied farm lands in all the provinces of Canada, save Saskatchewan, where the average value is estimated at \$24 an acre. Manitoba's average is \$28 an acre.

Municipalities Have Done Well.

Sixty-eight municipalities in Alberta during 1924 were able to finance their operations during the whole of that year without a cent of borrowed money, according to the annual report of the provincial Department of Municipal affairs which was presented to the Legislature the past week. Out of the total of 166 municipal districts in the province, only eight have outstanding debenture indebtedness, which totals \$67,000,000. Of the 101 districts which had to borrow money for current year's operations, all but 29 repaid the borrowings for the year. The districts have met all the debenture payments falling due in 1924.

The debenture issues of municipalities during the year totaled as follows: Cities \$3,756,196.98, towns \$15,000, villages \$5,500, grand total \$3,780,696.98 of which \$3,699,843.58 was for refunding issues, leaving \$80,853.40 as new issues.

Wild land tax was levied in 1924 on 4,394,108 acres, the levy totaling \$537,025.83.

The revenue of the department was slightly increased from 1923, totaling \$2,332,534.55, which, however, was short of the estimated revenue by \$505,219.86, chiefly made up by the disallowance of the mineral rights tax.

University Report.

In 1924 the University of Alberta had 1,341 registered students, according to the annual report of that institution. Of these 908 were men and 433 women. These of British birth were 905 of which 700 were Canadian and Albertans. Those of foreign birth totalled 250, of which 193 were Americans. There were 186 not specified. The registrations in the various faculties were as follows:-

Arts and sciences 738, applied science 117, medicine 200, law 109, agriculture 188, pharmacy 46, correspondence courses 94, Bachelor of Divinity 3, nursing 17. Total 1,482, minus 141 in double courses leaving the net total registrations at 1,341.

The University received during the year a total of \$525,000 from the Rockefeller Foundation of which \$25,000 was interest on the endowment of \$500,000.

Million-bushel Spipping Points.

Four points on the Lethbridge division of the C.P.R. shipped more than a million bushels of grain each in the shipping season of 1924-25. These points were Vulcan with 1,135,000 bushels, High River with 1,032,000 bushels, Nanton with 1,029,000 bushels, and Cardston with 1,000,800 bushels. The total shipments of the division to March 1st, were 22,500,000 bushels of which 19,759,000 bushels was wheat.

Good Price For Land.

A price of \$83 an acre for a farm near Claresholm, Alberta, was reported in a sale made during the past week. This is the highest price paid in that district for some years, according to the Lethbridge Herald.

Indian Reserve Land Sold.

A township of land in the Saddle Lake Indian Reserve, 45 miles north-east of Vegreville, was sold the past week for a total of \$187,200 of which half will go to the Indians of the reserve, in cash, and the other half in the reserve fund in trust for the Indians.

Alberta Coal For Ontario.

Arrangements are now being made for the shipment of 100,000 tons of coal from Alberta mines to the Ontario market, under special arrangement with the railways, the provincial government of Alberta and Ontario and the Federal government.

High River's Big Horse Sale.

A huge auction sale of horses at High River, which became an annual event, was instituted last week, the total amount realized at the first sale being \$35,000, with \$445 paid for a fine team of percherons. There were 458 horses entered for sale.

Rural Credit Societies Do Well.

Rural Credit societies in Alberta appear to be in a healthy state, according to reports available in the provincial government offices. With about \$800,000 outstanding collections during 1924 amounted to about 60 per cent. which is considered a good showing. There are now 28 rural credit societies in the province. The government recently was able to secure for the societies a reduction on interest rates to 6 per cent.

Short Course on Bacon Hogs.

The indications are for a good attendance of farmers at the short course on bacon hogs to be held at the Dominion Experimental farm at Lacombe, on March 26 and 27. This is being held under the auspices of the Dominion Livestock Branch, Dominion Experimental Farms Branch, Provincial Department of Agriculture and Faculty of Agriculture of the University. The program of the first day will include discussion of the feeding and management of hogs at the morning session and discussion and demonstration of the market type of hogs in the afternoon. On the second day there will be discussion and demonstration on the type of breeding hogs in the morning and inspection and discussion on bacon carcasses in the afternoon.

Newspapermen's Convention.

The annual convention of the Alberta and British Columbia Press Associations is to be held in Edmonton, Alberta, this year, on August 28 and 29.

Public Shooting Grounds.

Public shooting areas have now been established in Alberta and other provinces by the Federal government. In Alberta there will be 32 of these areas, chiefly surrounding lakes, it is expected. The game commissioner of Alberta has not yet received official information as to the location of these areas.

TO EXTEND TIME FOR FEDERAL AID FOR GOOD ROADS

Ottawa.—An extension of time for a further period of two years from March, 1926, to those provinces which have been unable to earn the federal aid for highways originally granted under the Dominion act of 1919, was assured by Hon. G. P. Graham, minister of railways and canals, to a delegation of the Canadian Good Roads Association which waited on Premier King and members of the cabinet.

Premier King promised sympathetic consideration of the proposal to recognize the principle of federal aid for good roads. Premier Veniot of New Brunswick, who headed the delegation in its capacity as president of the Good Roads Association of Canada, urged that it was the recognition of this principle rather than the grant of any specific sum, that the delegation wanted.

He pointed out that the Federal Government had benefited by the construction of good roads through cheap contracts for mail deliveries and still more through customs revenue on the enormously increased number of automobiles the good roads brought into the country. He suggested that the provinces should get a share of this revenue on automobiles as do the state treasuries in the United States. Premier Veniot asked for an extension of time to be granted to the provinces of Manitoba, Alberta and Saskatchewan in order that they might earn their share of the money already voted by the Federal Parliament for aid to the good roads system.

Giant Submarine Going To Singapore

World's Largest Underwater Craft Built By Great Britain
London.—Built at a cost of \$230,000, Britain's giant submarine XI, shortly will conclude her trials and probably start on a tour to Singapore and back. She is declared to be the most powerful underwater craft ever built, and has developed a speed of 37 knots on the surface. Under water she has a displacement of 3,000 tons and can be turned almost in her own length at 350 feet.

She is equipped with a large caisson, from which meals can be served while running under water.
Firm On Beer Measure
Toronto.—The Ontario Government is prepared to stand or fall in its policy of amending the Ontario Temperance Act, by permitting the sale of stronger beer, according to Premier Ferguson in the legislature. Mr. Ferguson said that the Provincial Government had decided on the strong beer policy on its own initiative without consulting the private members who support the government.

Montreal Tragedy
Montreal.—Miss Bertha Delanger, aged 21, died in hospital from burns she suffered when her "knockout" costume, in which she was going to a party, caught fire during the taking of a flashlight photograph. Her escort, Alexandre Dore, aged 28, in whose room on Stanley Street the tragedy occurred, and who was also badly burned, is reported to be recovering.

Agreement Is Ratified
Tokio.—The privy council ratified the agreement recently arrived at between the Japanese and Soviet ambassadors at Peking establishing diplomatic relations between the two governments. The exchange of ratifications took place at Peking, Feb. 26.

Asiatic Immigration Is Shown To Be Limited

Ottawa.—No Chinese immigrants landed in Canada during 1924, although 74 entered under permit, according to answers made in the House of Commons by Hon. J. A. Robb, minister of immigration. Chinese residents of Canada numbering 4,752 were re-admitted to this country after visiting abroad, in accordance with the Chinese Immigration Act. Japanese immigration totaled \$10 during the year 1924. Of these, 48 were of the agricultural class and 155 of the laboring class. There were 146 adult males and 262 adult females; and 102 children under 18.

Unemployment Less During February

Figures Show Great Improvement in Manufacturing in East
Ottawa.—The February employment situation throughout Canada, showed considerable recovery from the losses at the beginning of January, it is indicated by the reports of employers on February 1.
Statements from 5,832 firms, employing 799,578 persons, gives an increase of 15,821 more than on January 1, 1925. This increase, according to the dominion bureau of statistics, practically coincides with the average gain in the past four years. Improvement in manufacturing was most pronounced, except in the prairie provinces. The revival in Quebec was most marked.

Newspaper Office Destroyed By Fire

Plant of Estevan Mercury Is a Total Loss
Estevan.—The Mercury office operated by D. C. Dunbar for the past 20 years and founded in 1903 by John Bailey and Sons, was completely destroyed by fire. Practically nothing beyond a few books and a desk and chair was salvaged. Some insurance was carried. The loss will be about \$15,000.
Mr. Dunbar stated that the Estevan Mercury will continue publication. We may miss a few issues, but we will soon be getting out the paper as usual.

Famous Railway Coach
Paris.—The sleeper car which Roch used as headquarters for the allied allies was the scene of the signing of the armistice in 1918. In getting weather-beaten and the French authorities, anxious to preserve it, are in a quandary. It is in the courtyard of the Invalides Museum, of which it is a leading exhibit.

Former Chocolate King
York, Eng.—Joseph Rowntree, 79 years old, formerly proprietor of one of the largest chocolate plants in the world, died here recently. He was the head of a prominent Quaker family and was noted for his philanthropy. He started one of the best known model garden villages for the benefit of his 7,000 employees.

Aske Return of Mineral Rights
Edmonton, Alta.—The return of the mineral rights to the settlers of Alberta, with the object of bringing about rapid development of the natural resources, was advocated by J. M. Dechene, Liberal member for Beaver River, in a speech in the legislature.

Would Annul Oil Concession
Moscow.—The supreme economic council has entered suit in the Moscow district for annulment of the Sinclair oil concession in Saghalien on the ground of alleged non-fulfillment by the United States company of the conditions of the contract.

To Take No Action
Edmonton.—Premier Greenfield is reported as stating that the Alberta Government did not propose any immediate action regarding the Duncan report, which alleged that a huge fruit marketing combine existed in Western Canada.

Infractions of Dairy Act
Ottawa.—Twenty-seven infractions were secured for infractions of the Dairy Industry Act in 1923, and 89 in 1924, according to answers made in the house by Hon. W. R. Motherwell.

Australian Treasurer

Dr. Earle Page, Treasurer of the Commonwealth of Australia, who has been visiting Canada. Dr. Page says that as a prime requisite to the development of both countries, Canada should buy more goods from Australia.

Canadian Potatoes Go To Western Ireland

Destination of Cargo Changed to Aid Famine Sufferers
St. John.—A shipment of 40,000 barrels of Canadian potatoes on the steamship Cald, now at sea, has been diverted from its destination in the British market, to go forward to the relief of the famine sufferers in Western Ireland.
The Canadian shippers have made a very large cut in the price, and the cargo has been purchased by the Irish people. The Cald is carrying the last shipment of Canadian potatoes to leave this country before the embargo was put in force.

Red Army Is Warned

Must Face Clash With Soviet Enemies Says War Minister
Moscow.—In his maiden speech on army, General Michael Frunze, Trotsky's successor as Soviet war minister, sounded a warning to the Russian people to be ready to meet an attack from foreign foes.
"The Red Army must realize its situation," General Frunze said. "It should know that a big military clash with the enemies of Soviet Russia is in front of it. We must see that not only our Red Army is prepared for this, but our rear also."

Greece Bans U.S. Flour

Claims Harmful Results Have Accrued From Over Acidity
London.—A dispatch from Athens says a dispute has arisen with the United States legislation concerning the importation of United States flour into Greece. The Greek Government alleges that harmful results have accrued from the over acidity of the flour, and it has prohibited the entry of any flour of more than 150 degrees acidity. The legislation has declared that the prohibition is practically a ban on United States flour.

British Settlers Coming
London.—The first group of families emigrating to Canada under the new scheme for the settlement of those British families in Canada, will sail for Ontario on March 21. A considerable number of other families will depart later, but the number of single men emigrating is considerably less than last spring.

Many Deputy Ministers
Ottawa.—Twenty-two persons in the government hold the rank of deputy minister, with salaries ranging from \$6,000 to \$10,000 a year, according to a return made in the house by the secretary of state.

CUBES

Conferring Of Titles Is Frowned On In S. Africa

Cape Town, South Africa.—Strong views on the granting of titles to citizens of South Africa were expressed in the House of Assembly, when a Labor motion was presented praying the King not to bestow any more titles on South Africa. In giving his support to the motion, Premier Hertzog stated it was desirable to come to an early decision on the matter, in view of the approaching visit of the Prince of Wales to the Dominion. He urged that the move be respected and declared that popular leaders of South Africa should not accept titles. South Africans as a whole, he added, were opposed to class differences. Titles were chiefly given to wealthy men for their political support.

Prefers Federal Subsidy

Money Grant Better For Manitoba Than Remaining Resources
Winnipeg.—Under present conditions and circumstances Manitoba would rather have its federal subsidy than its natural resources. This was the effect, the opinion of Premier John Blacken, commenting on Premier Greenfield's announcement that Alberta's fight for its resources had been settled amicably.
The premier stated that Manitoba's position was in many respects different from that of Alberta. So much of Manitoba's resources had been alienated or disposed of by the Federal Government that in this province, for the present at least, it was better to leave the matter as it stands, accepting the federal subsidy in lieu of the remaining resources.

Sweden Mourns Death Of Former Premier

Was Regarded As One Of Country's Greatest Statesmen
Stockholm.—Flags were at half-mast throughout the country in honor of Hjalmar Branting, former premier, who died Feb. 25. All classes of people, the opponents of the former premier, as well as his followers, expressed their regret at the passing of one who was regarded as among Sweden's greatest statesmen.
One of the political effects of his death is expected to be the development of a tension—if not a complete split—in the ranks of the Socialist party which has been held together by the great force of Branting's personality.

Not For Secession

Western Canada Not Talking Secession Or Annexation Says Cramer
Sinnott, Ont.—Western Canada is not talking secession, much less annexation, but still it is very much dissatisfied, Hon. T. A. Cramer, president of the grain growers, told the Canadian Club here.
If secession ever came, he said, it would have its origin in the big eastern centres of population. The chief bond for all Canada today was the effort to get the cheapest possible transportation rates for both freight and passengers. Soon the bulk of the wheat of the prairie would be shipped via Vancouver, where great wholesale interests would spring up to compete with eastern wholesalers.

Austria Using Snow Melters
Vienna.—A newly developed snow melting machine was brought into action to cope with the snowfall, and proved to be a great success. The snow is pushed into piles by automobile plows and then shoveled into large wheeled basins, against the sides of which steam jets are projected. By this means 1,350 cubic feet are melted hourly.

Curtail Sugar Production
Brisbane, Australia.—Owing to the serious over-production of sugar in Queensland, amounting to 200,000 tons, it has been decided not to assign additional land for cultivation of this crop at present.

Signs Opium Pact
Geneva.—Leon Bourgeois, on behalf of France, has signed the opium convention drawn up by the second opium conference.

PROSPECTS FOR THE FARMER ARE MUCH BRIGHTER

Saskatoon.—At the Saskatchewan school trustees' convention here, J. S. Mills, president of the Saskatchewan Teachers' Alliance, suggested that the period of training for teachers should be at least one year in length, instead of only 16 weeks as in some cases, and also declared the profession could be improved by making teachers' contracts with school boards terminative on three months notice, instead of 30 days as at present. This would mean greater security for the teacher, and would enforce careful selection of teachers by school trustees, he said.

Fred W. Bates stressed the need of beautiful surroundings for all schools and also pointed to the work of the department in teaching agriculture in the schools.

"All signs now indicate that mid-winter is past and better prospects are coming into view," declared J. C. Haney, of the agricultural department of the International Harvester Company, speaking to the convention on diversified farming.

Mr. Haney said that the best information as to food production and world demand indicated that there were better times in store for farmers. "In advocating mixed, or diversified farming, we do not mean to quit for ever decrease the production of wheat," he continued. "We believe the only means of maintaining the production of wheat and lessening the risk of a single crop, is to diversify."

"More and better livestock and a diversified system of farming is an essential move in the right direction. Livestock and crop rotation, including legumes, alfalfa and sweet clover and cultivated corn and potatoes, will put farming on a more profitable basis."

Canada May Have Three New Canneries

United States Capitalists Apply For Million Dollar Federal Charter
Winnipeg.—The Winnipeg Free Press says: "Negotiations of United States capitalists with a view to establishing three canneries in Canada, one in the neighborhood of Winnipeg, have advanced to a stage where application has been made for a million dollar federal charter."
The name of the company will be Allied British Canners and Distributors Limited. It is proposed to erect one cannery in Quebec and the third in British Columbia."

Average Value Of Land Remains Same

British Columbia Stands Highest Of All The Provinces
Ottawa.—Canadian occupied farm lands including both improved and unimproved land as well as dwelling houses, barns, stables and other farm buildings, is returned here at the average value of \$37 an acre for 1924. The same value prevailed in 1923, according to the dominion bureau of statistics, as compared with \$40 in 1922 and 1921. By provinces, the highest average value is in British Columbia, with \$96 an acre for ordinary farm land, as compared with \$100 in 1923.

Prince Henry III
London.—Prince Henry, third son of King George, is suffering from a feverish cold, and will be unable as had been arranged to represent the King at the London horse show.

Healthy Liver Healthy Life

Your liver—healthy or clogged, active or sluggish—makes all the difference between a vigorous, cheerful life and low spirits and failure. To subdue a sluggish liver, overcome constipation, distension, biliousness, indigestion, headache and the blues there is nothing so sure as good as Carter's Little Liver Pills. Purely Vegetable.

CARTER'S LITTLE LIVER PILLS

Small Pill—Small Dose—Small Price

Value Of Improved Roads To The Agriculturist And Economic Life of the Country

Time is money, is an old axiom, and one that is only too true, says the natural resources intelligence service. Especially do we appreciate this condition when we find it necessary to call in the plumber, the carpenter, or any mechanic of other trades whose charges are based upon the length of time he occupies in completing the work required of him. The farmer's time also is valuable, and must be paid for by the consumer of his products. If he requires two hours to perform a certain piece of work he is entitled to be paid for the time consumed, and no one will begrudge him his charge.

This applies to his time in reaching markets or in his other trips to dispose of his produce. Under old highway conditions, when mud roads were mainly the only kind available, many valuable hours were consumed in reaching the destination, and loads were limited in many instances to the capacity of the team to haul the wagon over the poor roads. When any considerable distance had to be covered, a start had to be made in the small hours of the morning to reach the market on time, and the return journey had to be started early, sometimes entailing the acceptance of sacrifices in order to dispose of the load. Times have changed, however, with the coming of good roads. Today he can get over the same distance in half or less of the time he previously took, and he can do it with much more comfort. He need not start as early in the morning and he has a longer time to sell his produce, and he can start his evening sale back home. His day is consequently shortened and life is made more enjoyable. An illustration of what good roads mean in actual cash is furnished by a large dairy company that collects its milk within a wide radius. The company pays a higher price to the farmers living on good roads than to those situated on highways that are unimproved. The reason is quite evident. It costs the company more in time to collect the milk on the poor roads.

Canada has invested nearly \$100,000,000 in improved highways, and has nearly 200,000 miles of good roads. Millions of dollars are being spent yearly to add to this mileage and to improve existing roads. It would be interesting to farmers located on good roads if they would keep a record of the time saved by them, and of the greater loads they were able to haul over the good roads. It would lead to a greater appreciation of what this enormous expenditure means to them.

Discover Valuable Minerals

Lepidolite Deposit Found Not Far From Lake Winnipeg

Lepidolite, or lithia-salts, a mineral of the mica group, has been discovered east of Lake Winnipeg by two prospectors named Hoyt and Johnston. Investigations are being made to ascertain the extent of the deposit, and if the mineral is found in paying quantities it is probable that plans for development will be made and a new industry in Manitoba launched. Extracts of the mineral are used for medicinal purposes in the form of lithia salts, and they are also used in the manufacture of coal tar dyes. Specimens of the lepidolite discovered have been analysed by the Milton Hersey Company, Limited, analytical chemists.—Free Press.

World Wheat Shortage

Eastern Miller Sees Wheat At \$2.25 Next Year

Prediction of \$1.25 wheat in 1926, if this year's crop is up to expectations, was made in an address by J. A. Osborne, milling authority of Ottawa. The cause of the present high wheat prices was laid at the door of world shortage by the speaker. The surplus from this year's crop to carry over to next year would be very small. Mr. Osborne said there was no real shortage of oats in the world at present.

All Their Own

"Are the Neanderthals well off?" "Well off. Why, the only thing they have that the tinsmith men can't take is the baby."

Tourists Leave Much Money Here

Revenue Derived From Tourist Traffic Is Not to Be Despised

Many estimates are made as to the amount of revenue derived from the tourist traffic. It is somewhat uncertain, however, to receive a direct statement of expenditure by those who come to Canada for holiday purposes. The Natural Resources Intelligence Service of the Department of the Interior is receiving a large number of enquiries for information on canoe routes, motor trips and holiday resorts, from many residents of the United States. Among these is one in which the writer wants information concerning a canoe trip in Northwest Ontario he contemplates making this summer. He states that "last year, when we figured out we found we had left \$3,700 in your good province of Ontario, and I assure you it afforded us all great pleasure to do so." This necessary promise to be an exceptionally active one for tourist business, especially among the areas where transportation is almost exclusively by canoe and portage.

Studying Western Canada

American Scholars Ask Regina Board of Trade for Booklets

"It at least indicates that the American schools are commencing to pay close attention to Canada, and particularly to the west," said Secretary Manager C. A. Cooke, of the Regina board of trade, in commenting upon a further flood of letters arriving in the board of trade offices asking for booklets giving details of this province's area, resources and other features.

These letters have been coming in a steady stream for the past six months, and arrive from states all the way across the country. As a result, a number will come from one locality at a time, and the school children are evidently told by the school authorities to write to Regina for what facts and figures they require.

Encourage Use Of Best Seed Grain

Saskatchewan Government Will Assist In Improving Field Crops

The Saskatchewan Government will assist agricultural societies in purchasing registered seed grain. It is announced by Hon. C. M. Hamilton, the agent, said Hon. Mr. Hamilton, is to bring about the use of a larger proportion of high-class seed and to improve the yield and quality of our field crops. A loan of \$100.00 will be made to each of the first twenty-five societies which make application. It is expected that the societies will use their own funds to the same extent to purchase registered seed, and that this will be used to produce a supply of seed for the whole district.

Live Poultry For Europe

Trial Shipment For Breeding Stock May Be Sent to Great Britain

With the object of building up a market in Europe for Canadian poultry, the Canadian Poultry Record Association at its annual meeting at Regina decided to ask the government assistance in the shipment of trial consignments of live poultry breeding stock from Canada to Great Britain during the coming year. It was the feeling of the meeting that the advertising secured through the success of Canadian poultry at Barcelona and Wembley last year should be taken advantage of.

An Irish politician was delivering a passionate speech to a mixed crowd. He had suffered badly at the hands of one particular heckler, but at last his chance came.

"You think you're smart, don't you?" sneered the heckler. "Well, just tell us how many toes a pig has got?"

"Take your boots off and count!" was the lightning reply.

Circulating Libraries in Saskatchewan

During the year 1925 more than 1,000 circulating libraries were in operation in Saskatchewan, as compared with about 600 in the previous year. The average number of families reading each book was 17. More than half a million volumes were circulated by these libraries during the year.

Ship Alberta Coal East

Plans Under Way For Making Further Trial Shipments

The Provincial Government is considering making further trial shipments of Alberta coal to the Ontario markets during the present year, according to an announcement made by Premier Herbert Greenfield.

"Tentative plans have been completed, but of course there are several matters still to be gone into before definite steps are taken," the premier stated.

The Dominion Government is to provide assistance by way of taking care of any losses that might occur on transportation of the coal. "This is the same arrangement that prevailed when the first shipments of coal were made to Ontario from Alberta."

The government will discuss the matter with the railway companies with the object of obtaining the lowest possible rate on the shipments.

The first shipments made were on the basis of \$3.50 per ton loaded on the cars and it is expected that coal can be obtained at the same price—Edmonton Bulletin.

Suggested Export Tax On Wheat

President of United Farmers of Alberta Does Not Favor This Idea

"I cannot imagine any western farmer, or anyone who has the interests of the farmers at heart, being in favor of an export tax on wheat going into the United States as advocated by the royal grain inquiry commission," stated H. W. Wood, of Calgary, president of the United Farmers of Alberta, during an interview at Winnipeg. "In fact," added Mr. Wood, "I can only hope that no attempt will be made to bring in legislation along these lines for, if such a tax materializes it will do considerable harm to the farming community."

Grazing Lands

To Use Saskatchewan Lands For Stock Grazing Purposes

Authority to Issue 21-year grazing leases on vacant Dominion lands unfit for agricultural purposes in the province of Saskatchewan is given to the minister of the interior by the governor-general-in-council, according to The Canada Gazette.

Authority is also given to renew 21-year leases now held on condition that the lands affected are found to be unfit for agricultural purposes, and that they will be used to the fullest extent for stock grazing purposes.

Shipments Refused

Much Merchandise Is Returned Due To Improper Packing

Neglect of packing regulations, enforced by the Canadian Government to prevent bringing in of foot and mouth disease, caused the return to country of origin of large quantities of merchandise during the past few months. It is announced now that the refusal of shipments packed in hay or straw, unless certified free from infection, will continue to be rigid and shipping companies will continue to suffer by sides the consignees, as the necessity is urgent of protecting Canadian livestock and agricultural interests.

British Embargo On Canadian Potatoes

Suspect Presence of Colorado Beetle In North American Shipments

An order issued by the British minister of agriculture prohibits the exportation into England of potatoes from Canada, following a similar order issued last December, concerning United States potatoes. The suspected presence of Colorado beetle in shipments from North America is the cause of the prohibition. The present order does not apply to shipments which are already on the way over.

A teacher, trying to impress upon her children the importance of kindness to animals, took them for a walk in order to bring the lesson home to them.

Hearing a scream from little Johnny, she asked: "What's the matter, Johnny?"

"I've been sitting on a wasp," was the fearful response, "and I'm afraid I've hurt the poor thing."

Girl Students of the University of Washington

are required to wear shoes that have been approved by the department of physical education.

Inducements Offered By Canada To The Tourists Who Travel By Motor

Alberta Secures Natural Resources

Province Now to Take Over Remaining Resources From Federal

The negotiations between the Dominion and Provincial Governments for transfer of the natural resources to Alberta have been finally completed, according to an announcement made in the legislature by Premier Greenfield. The offer by the federal authorities has been definitely accepted on the part of the province by the minister.

The province is to take over the remaining resources, and will receive a payment of the amount of the present subsidy, in lieu of lands, for three years. The terms of this agreement will become final as soon as they have been ratified by the Parliament of Canada and the Provincial Legislature.

There are still a number of minor details to be settled, but it is not anticipated that any difficulty will be encountered in this respect.

Will Discuss Better Border Game Control

Saskatchewan, Manitoba, Ontario and Minnesota To Co-operate in Effort

A conference of game law authorities of Saskatchewan, Manitoba, Ontario and Minnesota to discuss the question of better border game control, will take place in the spring, it was learned at Winnipeg.

J. S. Gould, Minnesota game commissioner, enthusiastically endorses the proposed conference and its aims, and has promised to operation of his department in every possible way.

The idea is to prevent violators of provincial or state game laws taking refuge in adjoining provinces or across the international boundary.

How Milkmen Deliver Product In Alaska

Milk Wrapped In Oiled Paper

The milkman in Nome, Alaska, doesn't worry about spilling his milk. He calls from house to house and delivers a block of frozen reindeer milk or cream equal to a pint or a quart. A white cord frozen into the block of milk serves as a handle to facilitate delivering.

The blocks of milk and cream are tightly wrapped in oiled paper looking for all the world like ice cream. One feature about the milk business here is that so long as it remains frozen there is no deterioration in the quantity or quality.

Wheat and Population

Production of Wheat Not Keeping Pace With Increase in Population

Official estimates made in Rome, London and Washington place the wheat shortage for 1924 at 400,000,000 to 450,000,000 bushels. The figures show the bread-grain crop last year to have been about one-tenth below the yield of 1922. It is estimated also that the population of the world increases at the rate of 16,000,000 people, and that the total increase since 1912 has been 124,000,000. The average world wheat crop from 1909 to 1913 (including 1913) was 3,743,206,000 bushels, compared with 3,206,000,000 bushels in 1924.—Toronto Globe.

In Safe Keeping

"Come, Willie," said his mother; "don't be selfish. Let your little brother play with your marbles a while."

"But," protested Willie, "he means to keep them always."

"Oh, I think not."

"Yes," said he's swallowed two of them already."

Canada's Gold Supply

Though only a small portion of the Yukon has been developed, \$200,000,000 worth of gold has been mined up to date, amounting to half the gold production of Canada, according to George Black, member for Yukon to the Dominion Parliament.

Not Quite

Teacher: "What are panacea, Mary?"

Mary: "They grow on cats."

Touring is one of the inducements to buy the car and is one of the principal uses to which it is put by a great many owners. "Distance is so easily covered that every opportunity is taken to see new places and enjoy the benefits of the good roads wherever they may lead. This is well illustrated by the remarkable expansion of the American motor tourist traffic within the past few years particularly across the border into Canada. Canada has the natural attractions, agreeable climate, big game hunting, unexcelled fishing, waterways and scenery of supreme interest and other features that make her without a rival in the competition for the tourist traffic. Canada's highways are now comparable with the main highways of the United States and are being rapidly extended and improved.

A study of the distribution of the enormous registration of automobiles in the United States emphasizes Canada's position. In regard to American tourist traffic: More than \$620,000, or 43 per cent, of the total cars registered, are owned in states that border on the great lakes, and 7,570,000, or 75 per cent, are registered in the states that touch Canada or the international waterways. New York state, which lies within a day's run of Muskoka and the Rideau Lakes districts and the Ottawa Valley, has 1,160,145 cars. Pennsylvania has 1,058,387. Ohio, which also lies just across Lake Erie from Ontario, has 1,160,000 registered automobiles.

Over 3,000,000 cars are owned by persons who live within two days' run of Montreal, while over 1,000,000 car owners live within one day's run of Niagara Falls. Minnesota and North Dakota, immediately south of Manitoba, have 1,677,777 and 1,023,231 respectively, and immediately south of these bordering states are Wisconsin with 474,983 cars; Iowa with 569,358; South Dakota with 127,400; and Nebraska with 276,592 cars.

Getting away from the normal is the ambition of every tourist and in this Canada offers inducements that will interest the most satisfied traveler.

There is hardly a point on the Canadian border that is more than one day's run from virgin and in some cases almost unexplored country. It is true that much of the hinterland of Canada cannot be traversed by motor car, but the opportunities for a change of transport to that of the canoe, pack horse, steamboat, etc., are as varied as the country is extensive. On the other hand, to the tourist who prefers to stick exclusively to his car, each province offers a variety of roadways through areas of rare scenic attractions and abounding in large and small game and fish.

Want Road Completed

On-to-the-Bay Association Holds Meeting In Winnipeg

The first 223 miles of the Hudson Bay railroad are in as good condition as any branch line of the prairies, and in some places equal to the main lines, according to Big Game, H. W. Patterson, who reported at the annual membership meeting of the On-to-the-Bay Association, on his trip to the bay last September. A good deal of re-tieing of rebalancing has been done, he stated, and they were being sent for this season's work.

Charles F. Gray, president, was in the chair, and Mayor Webb, who looked in for a few minutes, assured the association that he was heartily in favor of the completion of the road. Reports presented by J. S. Menzies, acting secretary, and S. A. Blair, chairman of the organizing committee, showed that the association was healthy.—Free Press.

McIntosh who had summoned a doctor in the middle of the night, addressed the medical man when he arrived:—

"Are, doctor, I'm sorry we can't ye on such a treacherous job. Ye see, we thought we'd swallowed a haaf-crown, but my wife has been comin' up her cheese, and it turns out to be only a penny."

If a man salutes a female acquaintance military fashion instead of lifting his hat it's a clench he is baid.

Autos For Prince's
South African Tour

Seven Seated Car For Use In Nigeria Is Painted Scarlet

For the Prince's use during his South African tour six handsome touring cars are being sent out, five for the staff and one for himself. All are of 25-30 h.p., and they will be in charge of Mr. F. J. Small, who drove the Prince during his travels in India, Australia, and Japan. The Prince's own car, which Mr. Small will drive, is a five-seater, painted royal blue and upholstered in blue leather, with the Prince of Wales' crest on the doors and the three feathers in metal on the front of the car. For His Royal Highness's visit to Nigeria a huge seven-seater touring car, painted bright red, is being sent out. On the car will be prominently displayed His Royal Highness's crest, at the back and on the doors. Scarlet has been selected in preference to royal blue as being more impressive from the point of view of the West African natives.

BABY'S OWN TABLETS
ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else, and as long as there are babies in the home you will always find a box of Baby's Own Tablets on the shelves.

Thousands of mothers have become convinced through the actual use of the Tablets that there is nothing in equal form in baby medicine for colic and indigestion; breaking up colds and simple fevers; expelling worms and promoting the child's refreshing sleep so necessary to the welfare of little ones. Among the thousands of mothers who praise Baby's Own Tablets is Mrs. Alex. J. Perry, Atlantic, N.S., who says: "I always keep Baby's Own Tablets in the house as I know of no other medicine that can equal them for the minor ailments that come to young children. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ontario."

Prize Winning Recipe
For Mornay Sauce

Montreal Lady Wins First Prize In Borden Recipe Club Contest

Miss Anita Davis, Montreal, has just been advised of her success in winning first prize in the 1924 Borden Recipe Club contest. "This club, which is international in membership, has such a contest each year, open to all members, of whom there are approximately two hundred thousand. Miss Davis essayed a sauce recipe, the plan of the contest being for each contestant to compete in the classification in which she feels she excels. Her recipe follows:

Mornay Sauce—International Prize Winner

1/4 cup butter, 1/4 cup flour, 1 teaspoon minced onion, 1/4 teaspoonful thyme, 1/4 bay leaf, 1/4 teaspoonful salt, 1/4 teaspoonful white pepper, dash cayenne, 3 egg yolks, 1 cup white stock, 1 cup Borden's Evaporated Milk, 1/4 cup grated Canadian cheese, 1/4 cup grated Parmesan cheese.

In the top of a double boiler melt one-fourth cup butter; add onion and cook until yellow. Add the flour and stir until smooth. Combine milk and stock; pour gradually into the mixture, beating well with wire whisk. Add seasonings and cook slowly for one hour. Strain, reheat, add cheese and let cook until cheese is melted. Cream remaining fourth cup butter. Beat in the egg yolks, gradually, one at a time; add slowly to sauce, mixing well, using care that water in lower part of bowl is not boiling.

This sauce is excellent for all au gratin dishes—crab meat, lobster, sole fish, substituting fish stock for the white stock.

Any woman wishing to receive the Borden Recipe Book can write the Borden Company in Montreal, mentioning this paper, and she will be sent a copy free of cost.

For Sore Feet—Minard's Liniment

Finds Holland Dull

The ex-Kaiser and his new wife have recently been to inspect the German crown jewels, which remain intact and were sent to Holland to repose in the vaults of a great bank during the war. William's second wife is very anxious to wear these fine jewels as Empress. She is fed up by the dullness of the little flat country of Canada and that expedition to admire the jewels was undertaken to mollify her.

Minard's Liniment Fine for the Hair

INECTO RAPID

The world's best hair that will restore gray hair to its natural color in 15 minutes.

Saskatchewan School Trustees

List of Officers Elected For the Coming Year

C. E. Little, Ogema, was elected president of the Saskatchewan School Trustees' Association at the convention in Saskatoon. He replaces James F. Bryant, Regina, who refused to accept the nomination for an eighth term.

The other officers chosen were: Honorary president, James F. Bryant, Regina; first vice-president, F. W. Goulden, Ebenezer; second vice-president, Joseph Nedham, Unity; secretary-treasurer, J. H. Cunningham, Regina; honorary vice-president, Mrs. William Allen, Moose Jaw.

United States Buys
Famous Death Ray

Inventor Says Sale Made In Less Than Week

H. Grindell Matthews, inventor of the "death ray," asserted on his arrival in England from the United States that he had disposed of his invention in that country, but he would not divulge the buyer's price.

Mr. Matthews, who was a passenger of the Aquitania, said: "England has definitely lost the chance of obtaining my invention known as the 'death ray.' America snapped it up. I had been there only a week when I concluded negotiations for its sale."

MOST OLD FOLKS
REQUIRE A

HEART AND NERVE TONIC

After middle age little sickness and ailments seem harder to shake off than formerly as the heart action becomes weak and uncertain and the nerves are not as steady as they were in the younger days.

Now is the time when all aged people who wish to maintain their health and vigor should try their energy unimpaired should use

MILBURN'S

HEART AND NERVE PILLS

Mrs. M. O'Connor, Whitestone, Ontario, writes: "I have been troubled, most of my life, with shortness of breath, palpitation of the heart, and fainting spells. I was advised, by a friend, to try Milburn's H. & N. Pills, which I did, and at once found relief, and I have never had a really bad spell since. I am 80 years of age and I always keep them in the house, and feel that with their help I will see many more years. I always recommend them to anyone who is suffering from heart trouble."

For sale at all druggists and dealers.

Where Men Are Scarce

The stamping ground for Cupid in England should be Sussex county.

In Sussex there are more women proportionately than in any county in England, the women numbering 1,274 to every 1,000 men. This is 108 more than the average for the rest of England, and about 188 more than in 1913 before the men went to war and the women to work in the fields.

CUTICURA HEALS
ITCHY PIMPLES

On Face, Neck and Chest, Were Hard, Large and Red. Lasted Six Months.

"My trouble began with pimples on my face, neck and chest. The pimples were hard, large and red and festered and itched very badly, especially at night. The irritation caused me to scratch and the scratching caused eruptions. The trouble lasted about six months."

"I began using Cuticura Soap and Ointment and they afforded relief and after using one cake of Cuticura Soap and one box of Cuticura Ointment I was healed." (Signed) Miss Harry Gaudin, 617 S. Elm St., Spokane, Wash., June 4, 1923.

Cuticura Soap daily, with Cuticura Ointment occasionally, prevents pimples or other eruptions. They are pleasing to use, as is also Cuticura Talcum, an excellent depilatory.

Singles each free by mail. Address: Cuticura Dept., P. O. Box 540, Portland, Me.

Try our new Shaving Stick.

SUNDAY SCHOOL LESSON

MARCH 15

OUR LORD'S RESURRECTION

Golden Text: The Lord is risen indeed. Luke 24:34.

Lesson: John 20:1-18.

Devotional Reading: Psalm 16:5-11.

The Text Explained and Illuminated

The Visit of Mary Magdalene to the Tomb of Christ, verses 1, 2. On Sunday, the first day of the week, Mary Magdalene came early to the tomb of Jesus. Mary Magdalene was from the village of Magdala north of Tiberias; see Mk. 16:7. What Jesus had done for her is told in Lk. 8:2. She had been one of those near the cross (Jn. 19:25, Lk. 8:2). There were others with her, as the "we" in verse 10 indicates, and they had come to embalm the body of Jesus (Mt. 28:1; Mk. 16:1; Lk. 24:1, 10). The stone which rolled away from the tomb (Mk. 16:4) was placed over the entrance of the tomb (Mk. 16:4) and sealed (Mt. 27:66). It was probably a cylindrical stone which could be rolled to either side in a groove at the base of the opening. The women found the stone rolled away and Mary hastened away to tell Peter and John (John always refers to himself in his Gospel as "the disciple whom Jesus loved"), while the others evidently remained at the tomb and the events took place which are recorded in Mt. 28:5, 6; Mk. 16:5-8; and Lk. 24:1-4. On meeting the two disciples Mary cried in her grief, "My Lord!" "The Lord of the Lord of the tomb, and we know not where they have laid Him."

Asthma Victims. The man or woman subject to asthma is indeed a victim.

What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Examining Steel By X-Rays

Apparatus Wanted to Detect Flaws Through Eight-Inch Thickness

At present X-rays can penetrate pieces of steel three inches thick. Professor Pettin, director of the radiological research department, Woolwich, Eng., told the Royal Society.

What was wanted, in order to detect flaws in castings which were a danger to men's lives, was apparatus to enable them to examine into castings of eight, ten or twelve inches thickness.

A transformer had been constructed rated at 400,000 volts, and what was now required was a tube capable of taking that voltage.

When that was found they would be able to penetrate eight inches of steel.

Canadian Motor Exports

Importance of This Growing Industry to the Dominion

Canada leads the world in automotive exports in proportion to production, domestic sales or ownership of motor vehicles or to that of population. Not relatively but absolutely the automotive exports of the Dominion are only exceeded by those of the United States. Since 1920 the motor vehicle exports of Canada have nearly doubled, the increase being from 9.5 per cent. to 17 per cent. of the automotive export trade of the world.

Internally and Externally it is Good.

"The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, cough, whooping cough, pain in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand."

Germany and France
Make Temporary Pact

Commercial Agreement to Remain in Force Nine Months

A commercial agreement between Germany and France will remain in force for nine months. The agreement, which was signed in Paris, provides for the benefit of reduced tariffs on a progressive sliding scale which will continue in force nine months. It will then give way to a permanent commercial treaty, which will be based on the new French tariff.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Extirminator, an excellent remedy.

To combat a wave of hydrophobia, Yokohama, Japan, officials will give anyone \$200 if he leaves his dog unchained.

Minard's Liniment for Colds

This Lassie Has Her
Colds "Rubbed Away"

The mother of this attractive little girl, Mrs. E. E. Emmons, of 215 Seventh Ave., N. E., Portage La Prairie, Man., is one of the many Canadian mothers who are enthusiastic about the vaporizing salve, Vicks VapoRub, for treating children's colds. Mrs. Emmons writes: "My little girl had colds at night pretty badly and Vicks did her a lot of good. I have also used it with very satisfactory results for head and chest colds."

Vicks is just "rubbed on" for sore throat, tonsillitis, bronchitis, croup or deep chest colds. When so applied, Vicks has a double direct action: Internally medicated vapors are inhaled while, at the same time, externally, it is absorbed through and stimulates the skin.

A Giant Digible

Plans to Build Airship Twice Size of

Los Angeles

The Goodyear Company of America is planning the construction of a dirigible twice the size of the Los Angeles to establish a New York-London passenger service, it is reported.

Dr. Karl Armstrong, former chief of construction at the Zeppelin plant, is said to have received an offer from the company to build the ship. The ship will have motors generating 4,000 horsepower.

**We Have It On Good Authority
That We Are To Discontinue
THE HOG BUSINESS**

Also that we have been buying Hogs and not
PAYING WHAT WE ADVERTISE.

Gentlemen! We did not enter the Hog business
with the intention of putting anyone out of
business, we are not strong enough financially
to enter Trade War.

We Flatly and Emphatically Declare
that we have invested our money in
accommodation and equipment and that money
will not lay idle so long as a single customer
will patronize us.

Since we entered the business our competitors
have learned that they can eliminate yardage and
Commission in Calgary. If those people are
playing square this should reduce handling
charges to our basis, so in that event we deserve
credit and support of the people of the district.

Local and General

"All my life I have been handicapped because I could not make up my mind and keep it made up. The biggest opportunity I ever had or ever shall have was lost because of indecision". Taken from "What Indecision Has Cost Me" in March American Magazine. Other interesting and educational topics running in all other Magazines. Come in and look them over.
The Radio Shop.

**Death and Funeral of
Mrs. Geo. McLeod.**

It is with regret and deepest sympathy that we have to report the death of Mrs. Geo. McLeod, which took place at her home in Crossfield, early on Thursday morning, March 12th, 1925. She had been in failing health for some time, still her death came as a shock to a great many of her friends. Deceased was born at Channel, Newfoundland, and was 45 years of age.

Always an indefatigable worker for any good cause and was associated with almost every institution in the town, but she will probably be missed most by the Agricultural Society, of which she was a leading spirit in all the energies this body put forth, having been a director for a number of years.

She leaves to mourn their loss one sister, Mrs. Thos. Day, of Halifax, N.S., her husband, 1 daughter and 4 sons.

The funeral took place on Saturday, March 14th, the Rev. H. Clay of Olds, conducted the service at the Church of the Ascension, the sacred edifice being full to overflowing with her bereaved relatives and sympathizing friends, and her remains were laid to rest in the Crossfield Cemetery.

Floral tributes were sent by the following:-

'Husband and Family,' 'Willie Bennie, Classmates and Teacher,' Mr and Mrs. Wm. Laut, Women's Guild, Crossfield and District Agricultural Society, Rev. Marsh, Officers and Members Crossfield Lodge No. 48 A.F. & A.M., Officers and Members Crossfield Lodge No. 42 I.O.O.F., and Justice Rebekah Lodge No. 62. Mr. and Mrs. Jack Crocker, Mr. and Mrs. Geo. Playton, Mr. and Mrs. Bert Playton, Mr. and Mrs. D. Cuming, Mr. and Mrs. Conrad and Roy, Miles and Antoinette, MacKay Bros., Mr. and Mrs. Dougan, John Moser, Mr. and Jas. Belehaw.

Card of Thanks.

Mr. George McLeod and Family wish to thank their many kind friends who assisted them by acts of sympathy and friendly service during the illness and death of their beloved Mother and Wife.
